

Developing course equity reports to understand and reduce inequity in University of Michigan classes

Nicholas T. Young¹, Rebecca L. Matz¹, Heather Rypkema², Susan Cheng², Holly Derry¹, W. Carson Byrd³, Ben Koester⁴, Eric Bell⁵, Caitlin Hayward¹

¹Center for Academic Innovation, University of Michigan

²Center for Research on Teaching and Learning, University of Michigan

³National Center for Institutional Diversity, University of Michigan

⁴Department of Physics, University of Michigan

⁵Department of Astronomy, University of Michigan

@NickYoungPER

Wealthy, white,
students from
educated families

Low income, first
gen, B/L/M/N

Low income & first
gen & B/L/M/N

Goal: develop scalable report to analyze grade equity in courses

How we do it

What's inside

ANON 101 Course Report

FCL/CAI/CRLT

January 2022

Contents

1 ANON 101 Overview	3
1.1 Enrollment	3
1.2 Demographic Statistics at U-M	4
2 ANON 101 Student Identity	5
2.1 Year of Study	5
2.2 Race/Ethnicity	6
2.3 Socioeconomic Status (SES)	7
3 ANON 101 Geographics	8
3.1 Domestic Students	8
3.2 International Students	9
4 ANON 101 Student Paths	9
4.1 School/College affiliation	9
4.2 Majors	10
4.3 Pre- and Co-Enrollments	11
4.4 Partner Courses	12
4.5 Post-Enrollments	13
5 ANON 101 Course Network Map	14

1

What's inside: Grade distribution

AB% is 76%
DFW% is 7%

@NickYoungPER

What's inside: Grade distribution

- Does this grade distribution reflect what you would like to see in your course?

AB% is 76%
DFW% is 7%

What's inside: Grade distribution

AB% is 76%
DFW% is 7%

- Does this grade distribution reflect what you would like to see in your course?
- If not, how might you adjust pedagogy and/or assessments to get closer to the desired outcome?
- Does this course have a mandatory distribution requirement? If so, is this historical distribution consistent with it?

What's inside: Grade distribution

AB% is 76%
DFW% is 7%

- Does this grade distribution reflect what you would like to see in your course?
- If not, how might you adjust pedagogy and/or assessments to get closer to the desired outcome?
- Does this course have a mandatory distribution requirement? If so, is this historical distribution consistent with it?
- If you do have a required distribution, are your assessments adequately gauging learning outcomes, so that the final grades mirror degree of student learning?

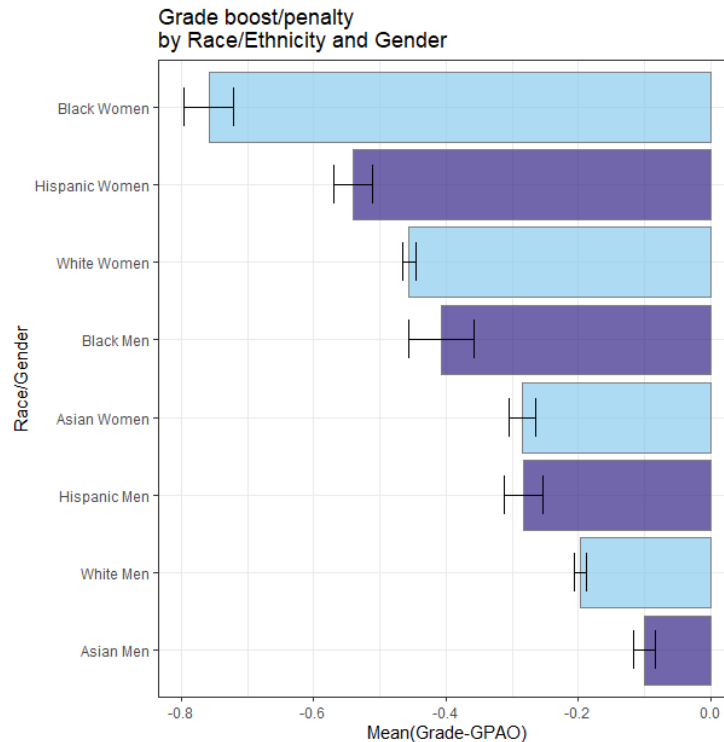

What's inside: Comparison to other courses

What's inside: Comparison to other courses

What's inside: Grade Penalties/Boosts

What's inside: Barrier index

Barrier index = is B/L/M/N + is first gen + is low income

What's inside: Barrier index

What's inside: Barrier index

What's inside: Barrier index

What's inside: Barrier index

- For this course, where are people with the highest barrier score?
- How far away (GPA and/or grade-wise) are they from people with the lowest barrier index?
- Does your course historically have a very small amount of high barrier students?
- Even if the N is small, what can you do as an instructor to enable ALL students to succeed?
